The humanist psychotherapist Carl Rogers spoke of the ideas of Self-Image and Ideal Self. This Self-Image, sometimes referred to as the Perceived Self, is the way we perceive ourselves to be. The Ideal Self is the image we have of how we would like to be. True Self is this Ideal Self. It is who we would choose to be if we were living up to our own highest expectations of ourselves. Identifying what your own True Self looks like is the first step in creating a road map to get there.

To create this outline of your own True Self, answer the questions below. Your answers are creating an autobiography of how you'd like to be. This autobiography is the substance of your True Self.

What do you care about? What gives your life passion and meaning?
